

THOUSAND-AND-ONE SOLUTIONS

MARKERPEN

Permanent paint marker.

Markerpens for multi-surface use. An ideal product for every toolbox.

Advantages:

- Excellent coverage, even on black surfaces.
- Fast drying for efficient work flow.
- Durable tip with valve action to prevent excess of paint flow.
- Convenient, medium thickness tip.
- Easy and clean application.
- Multisurface, can be used on: wood, metal, concrete, stone, bricks, rubber, glass, textile, paper, enamel, plastic, cardboard, tiles, ...

Applications:

- Wood working.
- Metal working.
- Road construction.
- Civil engineering.
- Building Sites.
- Topography.
- Machine construction.
- Logistic.
- Electrical installations.
- ...

Directions:

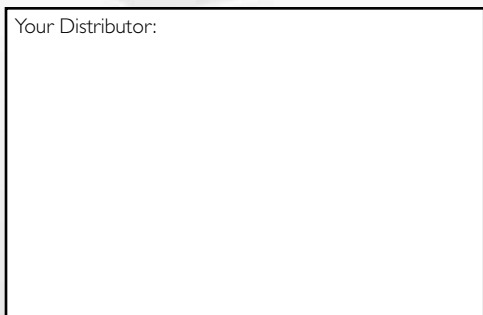

- Shake the pen well (with the cap on), until the agitator ball moves free.
- Take off the cap and press tip several times or until the paint starts to flow.
- Always use in a well ventilated area.
- Replace the cap carefully after use and store in a horizontal position.
- The color may fade when exposed to direct sunlight for an extended period of time.

THOUSAND-AND-ONE SOLUTIONS

MARKER PAINT

500 ml Aerosol

Special paint for manual marking and signaling.

CRC Marker Paint is a special paint formulated for signaling and marking jobs for all types of outdoor works. Due to the special resin the product has a very good adherence to any type of substrate (asphalt, rock, ground, concrete), even under severe weather conditions (humidity, cold,...). The special formula ensures a good (fluorescent) aspect over light and dark areas.

Advantages:

- Fast drying, non dripping formula.
- High fluorescent finish (for fluorescent colors only).
- Complete range of colors.
- Resists low temperatures (till -35°C).
- High performance, high coverage.
- Free of chlorinated and aromatic solvents.
- Special easy-to-use protective cap.
- 360° Valve. Application from all positions: vertical, upwards and downwards.

Applications:

- Signaling on construction sites: buildings, roads, bridges, tunnels, harbors, etc.
- Utility companies: light, water, gas, telephone, cable, TV, electricity, etc.
- Mining industry, civil work, industrial sites etc.
- Topography in general.
- Forest marking and wood industry.
